

C WOOD & SON
LUTON LTD

Case Study

**Floor Tiling
The Marlowes, Hemel**

The Job

C Wood & Son Luton Ltd were contracted by The Marlowes Shopping Centre Hemel Hempstead to replace the floor tiles in one of their lift lobby's.

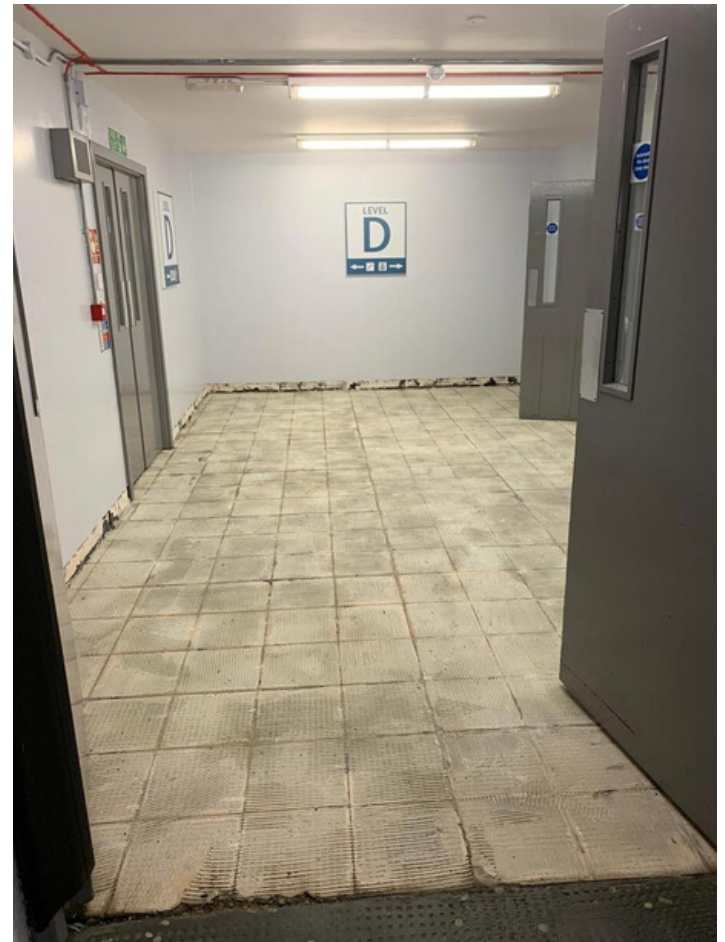

To ensure public and staff safety, we blocked off the entrance to the lobby floor we were working on and put up signs in the lifts which stated the floor was out of bounds.

We first removed the existing floor tiles and disposed of, followed by latexing the entire floor. After leaving the latex to dry for 24 hours we were then able to lay the new floor tiles that were chosen by the client. Once complete, we cleaned and cleared the lobby ready for public use again.

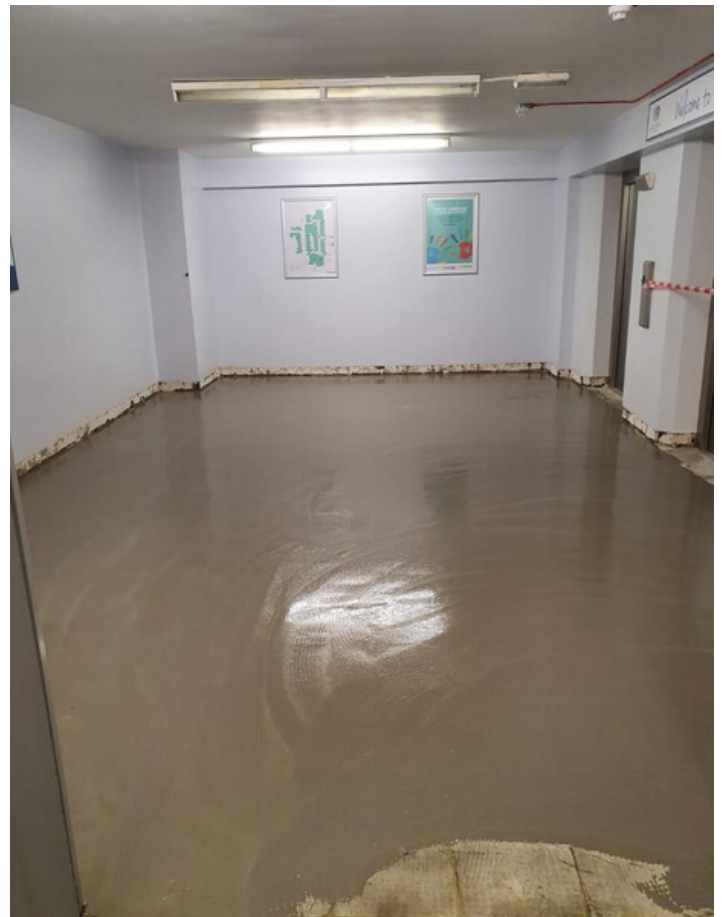

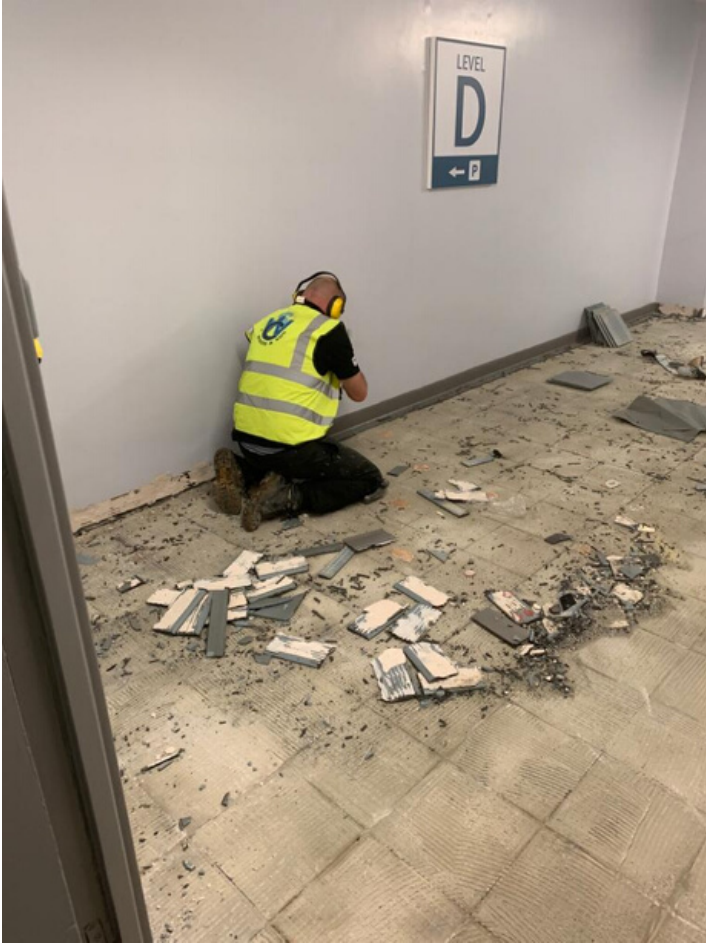

The clients were very impressed with the finished result and have since contracted us for further works at The Marlowes.
