

C WOOD & SON
LUTON LTD

Case Study

**Toilet Refurbishment
Capability Green**

The Job

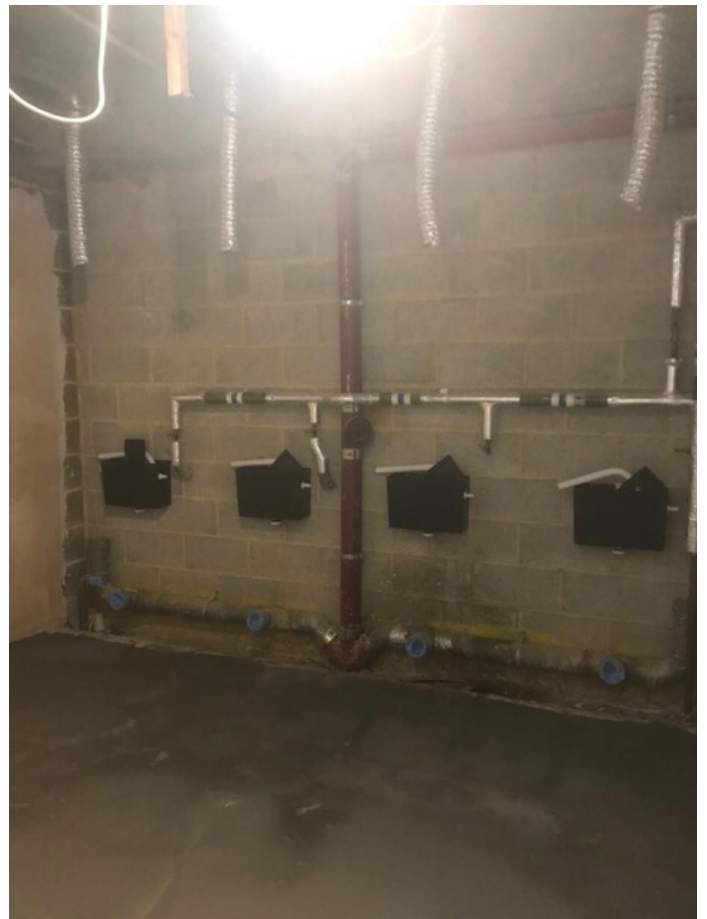

C Wood & Son Luton Ltd were contracted by Impellam at Capability Green in Luton to carry out a complete toilet refurbishment to three toilet blocks throughout their office.

We stripped both the male and female toilets back to a shell to leave us with a clean slate. We tiled the walls and ceilings and installed a new suspended ceiling along with 11 LED down lights and 4 fans. A new door was installed to the entrance of the toilet and a, new corian vanity unit with 4 basins and taps was put in. New cubicles were installed with concealed ducts along with 4 cisterns and back to wall pans. Each set of toilets were completed with new vanity mirrors.

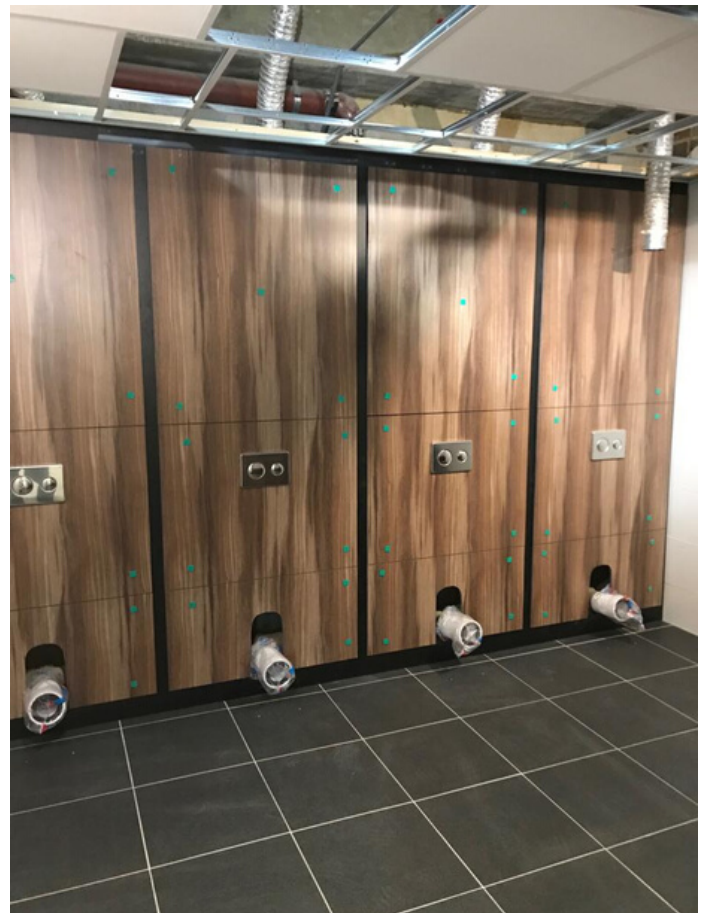

Client was impressed with the work and has contracted us for more work since.
