

C WOOD & SON  
LUTON LTD

# Case Study

**Extension & Disabled Adaptations  
Luton**

# The Job

C Wood and Son were employed to build an extension and carry out internal disabled adaptations to a property in Luton.

For this project we:

- Dug the footings for the extension and concreted.
- Installed the drainage.
- Built 9" brickwork to DPC and 9" brickwork.
- Dug out the oversite, MOT'd, concreted, insulated and screeded.
- Replaced and moved the gas meter.
- Installed rafters and 3No velux electric windows.
- Installed new felt, batten and tiling to the roof.
- Installed fascia and guttering.
- Installed bi-fold doors and 1No UPVC window.
- Knocked out rear and side wall and installed steels.
- Completed all electrical works and plumbing.
- Installed stud walls, plaster boarded and skimmed the walls.
- Drylined and skimmed the walls.
- Plaster boarded and skimmed the ceilings.
- Installed 3no internal doors and frames.
- Skirting.
- LAS shower, WC, basin, full tiling and altro flooring.
- 3no emulsion to walls and ceiling.
- knot, prime and gloss woodwork.

This project was completed in 12 weeks.

The clients family were very pleased with our organisation, workmanship quality and the attitude of our employees throughout the project.
