Case Study

Garden Patio & Artificial Grass
Wixams, Bedford

The Job

C Wood and Son were employed by local business owner, Emma Jones of Carways Candy, to completely re-do her back garden in Wixams, Bedford.

The client wanted a new patio area with artificial grass to ensure her children still had somewhere to play but the business, which Mrs Jones runs from a unit in the garden, also looked clean and professional from the outside.

For this project we:

- Lifted the existing slabs, decking and disposed of.
- Dug out the existing grassed area.
- Laid MOT Type 1 and consolidated.
- Laid the sand bed and slabs for the patio area and path.
- Laid the artificial grass.
- Installed a new gate.
- Decorated the fence.

This project was completed in 6 days.

The client was delighted with the finished result and for the quick turnaround in which our team completed the project.
