

C WOOD & SON
LUTON LTD

Case Study

New PVC Stack
Luton

The Job

C. Wood & Son were employed by a family in Luton to undertake the installation of a new PVC Soil Stack.

For this project we:

- Removed the corroded 4" cast iron soil stack
- Installed a new UPVC 4" soil stack
- Connected to the toilet to the new stack
- Cleared site upon completion

This project was completed in half a day and the clients were delighted with the quick turn around and end result.

A great job all round from the team.
