

C WOOD & SON
LUTON LTD

Case Study

Steel Replacement
Luton Mall

The Job

C. Wood & Son were employed by Capital & Regional to complete a steel replacement and decoration project at the carpark in Luton Mall.

We have carried out a number of projects for Capital & Regional in Luton Mall (as well as other shopping centres such as Ilford), but this project was going to be a challenge. We had to complete the project in a short space of time to ensure the disturbance for the shopping centre users was as minimal as possible.

For this project we:

Broke out brickwork and concrete cladding to the columns,

- Replaced twenty steel beams
- Re-concreted the columns
- Re built the brickwork
- Resurfaced the down ramp
- Reinstated the lighting we removed to carry out the beam replacement
- Finished with decoration.

This project was completed in 12 weeks.

The clients were very impressed with the final finish of the project and have asked us to carry out similar works to their second car park.
