

C WOOD & SON
LUTON LTD

Case Study

Balustrades & Ceilings
Luton, Bedfordshire

The Job

C. Wood & Son were employed by a client in Stopsley, Luton to turn her unloved garden into a space where she could enjoy the summer sunshine and entertain friends and family.

For this project we:

- Built a decking space to cover the clients garden space within her maisonette agreement. The garden is a 35 degrees so we finished the decking off with some stairs at the end to allow access from the rear of the garden.

This project was completed in 3 days, just in time for the Easter sunshine.

The client was over the moon with her new garden area and couldn't thank the team enough for their hard work before the bank holiday.

Great job Michael, Joe and Rhys!
