

C WOOD & SON  
LUTON LTD

# Case Study

Garage Door  
Luton Hoo Estate

# The Job

C. Wood & Son were employed by Luton Hoo to make a single garage door on their estate, into a double door.

For this project we:

- Removed the single garage door
- Made the opening larger
- Installed a new lintel
- Installed an electric double door
- Rendered externally and plastered internally.
- Decorated internally and painted the garage floor

Please Note: due to bad weather, we are having to wait for the external render to dry out.

This project was completed in 10 days

The client was thrilled with the finished result and have asked us to quote for some more works around the estate.

A great job all round from the team!
